This Leica R Lens Case provides robust protection and precise organization for your Leica R lenses, housed in the durable Nanuk 945 Hardcase. The custom-cut, closed-cell EVA foam insert is engineered for impact and moisture resistance, ensuring each lens is securely held in place with dedicated slots for 24mm to 135mm focal lengths. Designed with finger-grip cutouts, it allows for easy lens removal, while the Nanuk 945's shockproof, waterproof construction and convenient carry-on size make it ideal for travel. Choose from various color options for the insert layers and case exterior, plus customizable lid foam for a personalized, secure transport solution.
